FULL STACK DEVELOPER

I'm a dedicated Full Stack Developer transitioning from a successful 8-year career in the construction industry to web development. My journey reflects a deep passion for continuous learning, technology, and problem-solving. Having recently graduated from Le Wagon Tokyo's web development bootcamp, I am excited to apply my skills to real-world projects. I thrive in collaborative environments, where teamwork and innovation drive meaningful project outcomes. My goal is to contribute to impactful, user-focused web solutions and continuously grow as a developer.

WEB DEVELOPMENT PROJECTS

Huddle

- Huddle Landing Page is a React and Styled-components project that deepened my understanding of React while honing my UI/UX design skills.

Tech: React Native, Styled-components

PRM (Personal Relations Manager)

- is the power of a CRM and the ease of a Contact Mobile app. Manage your personal network of contacts and companies. Stay on top of what you need to do with notes, todos, and events.

Tech: Ruby on rails, Ruby, PostgreSQL, HTML, CSS, JavaScript

Code and Create

- A fully responsive, multi-page web app created using HTML, CSS, and vanilla JavaScript. It features a modern design with dynamic content and advanced CSS techniques, enhancing both the look and functionality of the site.

Tech: HTML, CSS, JavaScript
